

Putting the
"QUALITY" back in
quality assurance.

THIRD PARTY QA
TRAINING & CONSULTING

EnergyLogic has been delivering the 3rd Party Quality Assurance services to a BROAD SPECTRUM of clients since 2001.

From DSM programs to outsourced HERS Quality Assurance, EnergyLogic views our work with our QA clients with the utmost seriousness. We are "true believers" in the value and importance of a solid foundation of quality assurance in any program. For our own HERS Providership, we set the highest standards. For our clients—whether in our backyard or across the country—we bring the same level of attention to detail, rigor and integrity to every job we undertake.

Training—where and when you need it

The staff of EnergyLogic's Energy Professional Division and the EnergyLogic Academy are some of the most experienced in the nation. We couple that experience with intense passion and dedication to mission. That synergy allows us to deliver the best training in the industry. We work with some of the best subject matter experts around to produce timely, relevant and interesting training. We've made a significant investment of time and energy to build and perfect the industry standard eLearning platform. Experience has shown us that eLearning done well is one of the best ways to learn—period.

We are able to "white label" virtually any of our trainings for your organization's needs. ***Ask us how we can work together!***
