

Exam Details, Tips and Tricks

ALL exams must be proctored at a RESNET-approved proctoring location.

ALL exams are open-note and open-book, including all web-based resources.

ALL exams must be registered through a RESNET-accredited Training Provider.

Proctoring/Exam fees are NOT included in the EnergyLogic online or field training tuition.

RESNET National Rater Exam

50 Multiple-choice and true/false questions

Price: \$100/attempt

Retest Fees: \$100/attempt

Passing Requirement: 80% or better

2 hour time limit

Average Time Spent Completing this Exam: 1.5-2 hours

EnergyLogic Tips and Tricks:

- This is the most difficult of the four exams required to become an Energy Rater.
- Know where to search for answers within the RESNET Standards – many of the questions asked on this exam require you to refer to the RESNET Standards. You do NOT need to memorize the standards, but you will need to know where to find that information. [This also has a practical application. Since the Standards are changing constantly, certified HERS Energy Raters will need to know where to find new information in the Standards out in the field.] Review the [Continuous Maintenance Version](#) of the Standards.
- Take the practice exam at least twice, scoring an 85% or better. One of the last modules of EnergyLogic's Online HERS Rater Training provides students with a bank of 150 questions designed to mirror the types of questions on the National Rater exam. The practice exam prepares students to use systems thinking tactics, encourages note preparation and enables students to manage their time wisely.

ResCaz Combustion and Safety - Written Exam

25 Multiple-choice and true/false questions

Price: \$50/attempt

Retest Fees: \$50/attempt

Passing Requirement: 80% or better

2 hour time limit
